Agenda & Discussions:

1. AWS testing report.
   In order to complete the website, we need to test all of our codes on AWS.

2. Poster requirements.
   Our clients suggest the background of the poster can change to a picture about listening like a person wearing head phones which may be relative to our guideXP project.

3. Project problems summary.
   Project delay and our client do not know much about the processes that we had done, therefore our clients ask us try to write something more on slack and trello, to make sure the clients know what we are doing.

4. Week 10 Audit presentation3.
   Consider the next client meeting is on Tuesday, we may not finish the draft of the presentation. Therefore, we plan to send the draft to our client before week 10.
